Robert Herbaugh

CEO, BLUE SPHERE TECHNOLOGIES

Welcome Message

Thank you for entrusting Blue Sphere Technologies, where our mission is simple: 'Simplifying Technology, Amplifying Success.' We're more than just a managed service provider; we're your trusted partner in technology and security. Our comprehensive line-up of services function as an integrated extension of your team, adeptly handling everything from procurement and setup to cloud configurations and cybersecurity.

As we commit to join forces, rest assured that my team of seasoned experts are committed to proactively tackling IT challenges, keeping your operations both secure and efficient. This eliminates the noise of extraneous costs and potential vulnerabilities, allowing you to focus on what you do best: empowering your team and growing your business. We're excited to help you achieve new heights of productivity, success, and security.

Company BACKGROUND

Founded in May 2022, Blue Sphere Technologies is your trusted partner for all your IT needs, committed to our core philosophy: Simplifying Technology, Amplifying Success. We're more than just a managed service provider; we're a strategic asset for your business. Our tailored approach focuses on the pillars of modern business—securing endpoints, identity, and networks—ensuring that you're not just protected, but also poised for growth. A standout example of our impact was a project where we transitioned a client to a modernized infrastructure, resulting in a 45% increase in their business productivity while significantly reducing network congestion, enhancing security, and providing failover capabilities, extending service even in the event of regional outages.

Our expertise doesn't just lie in resolving issues but in proactively foreseeing and preparing for them. We use the latest in automation technology to offer proactive support, aimed at preventing operational hiccups before they even occur. Our mission is to allow you to concentrate on what you do best—running your business—while we handle the complex world of IT. Whether you're an emerging local business or an expanding enterprise, we adapt our comprehensive IT solutions to meet your specific challenges and opportunities. With Blue Sphere Technologies, you're not just getting an IT service; you're gaining a trusted partner in your journey toward greater productivity, security, and growth.

Vision

To redefine the standard for managed IT services, simplifying technology to amplify our clients' successes. We aspire to be an indispensable partner for businesses of all sizes, offering tailored, cutting-edge solutions that secure and empower. Through proactive, automation-driven support, we aim to transform our clients' IT landscape, turning challenges into opportunities for their continued growth and innovation.

Mission

Simplify Technology,
Amplify Success.

Core Services

Managed Endpoints

Our "Protect & Secure" service provides robust, state-of-the-art cybersecurity measures that safeguard your data and IT infrastructure, ensuring your operations remain secure against any potential threats.

Managed Identity

Our "Managed Identity" service offers comprehensive identity and access management solutions, ensuring only authorized individuals can access your crucial business resources. We simplify identity lifecycle management while enhancing security and compliance.

Managed Network

With our "Managed Network" service, we take care of your network's efficiency and reliability. We provide continuous monitoring, management, and optimization of your network infrastructure, ensuring seamless connectivity and optimized performance.

Managed Servers

Our "Managed Servers" offering delivers unparalleled cybersecurity measures, including real-time protection and automated backups. These features work in concert to secure both your servers and data, ensuring the core of your IT infrastructure is resilient against a wide array of potential threats, regardless of on-prem or in the cloud.

Additional Services

Helpdesk

Blue Sphere Technologies' "Helpdesk" service is your go-to resource for quick, professional IT support. Our dedicated team is ready to troubleshoot and resolve any IT issues you may encounter, providing you with a smooth, uninterrupted tech experience.

Virtual Executive Role Fulfillment

Our vCIO/vCTO service provides strategic IT guidance without the cost of a full-time executive. We assist in technology roadmapping, IT budget planning, risk management, and ensure your IT strategy aligns with your business goals.

Managed Security Services

Our Managed Security Services provide 24/7 protection against cyber threats, seamlessly integrating with your existing team or serving as a cost-effective standalone solution. Benefit from expert monitoring, threat intelligence, and incident response, allowing you to focus on your core business with peace of mind.

Restore & Recover

Our "Restore & Recover" service safeguards your business from data loss and minimizes downtime in the event of a disaster. We offer efficient backup and disaster recovery solutions that ensure your data's safety and your business's swift return to operation.

Managed Domain

Blue Sphere Technologies' "Managed Domain" service simplifies your domain management by taking care of domain registration, setup, and renewals. We handle the technicalities, allowing you to focus on your core business.

Equip & Procure

With our "Equip & Procure" service, we handle sourcing, procurement, and management of your IT hardware and software needs. We ensure you get the right equipment at the right prices, all tailored to suit your specific business requirements.

Projects & Time and Materials

Our "Projects & Time and Materials" service offers flexibility and control for your unique project needs. We provide experienced IT professionals, resources, and meticulous tracking for your IT projects, delivering on time and within budget.

Trusted Partner

Security Matters: The Blue Sphere Tech Difference

In an era where cyber threats are increasingly sophisticated, securing your IT infrastructure is not a luxury—it's a necessity.

By partnering with Blue Sphere Technologies:

- You **reduce your vulnerability** to cyber threats. Our proactive monitoring and advanced security measures help protect your business from potential cyber attacks.
- You **ensure compliance**. We ensure your IT systems adhere to industry regulations and standards, mitigating legal and financial risks.
- You can **have peace of mind**. Knowing your IT environment is secure and managed by professionals allows you to focus on what you do best—running your business.

Microsoft 365 & Your Business

Embracing cloud technology, such as Microsoft 365, can drive significant benefits for your business:

- **Enhanced Collaboration:** Microsoft 365's suite of tools, including Teams, OneDrive, and SharePoint, facilitate real-time collaboration, enabling your employees to work effectively, whether they're in the office or working remotely.
- **Improved Productivity:** With tools like Outlook, Word, Excel, PowerPoint, and more at your fingertips, your team's efficiency can soar.
- **Cost-Effectiveness:** As a subscription service, Microsoft 365 helps reduce upfront costs and offers flexibility to scale as your business needs change.

Studies indicate that businesses can see a return on investment (ROI) of up to **162% over three years** when they switch to Microsoft 365*.

Our role at Blue Sphere Technologies is to ensure you extract maximum value from this powerful platform.
